Hi Sergiy,

Please see the SDTM define snapshot. The aCRF opens when I access it through the first link available in the top left corner of the define in the side bar. But when I try to access the individual pages associated with the variables, I am not able to. Could you please let me know what am I doing wrong? Thanks

Regards,
Hari

AGE	Age	integer	Record Qualifier	8		CRF [unresolved: LF.acrf] [7 ⏷]
